Experiment – 5

Customer Complaint Management Application Using Zoho Creator

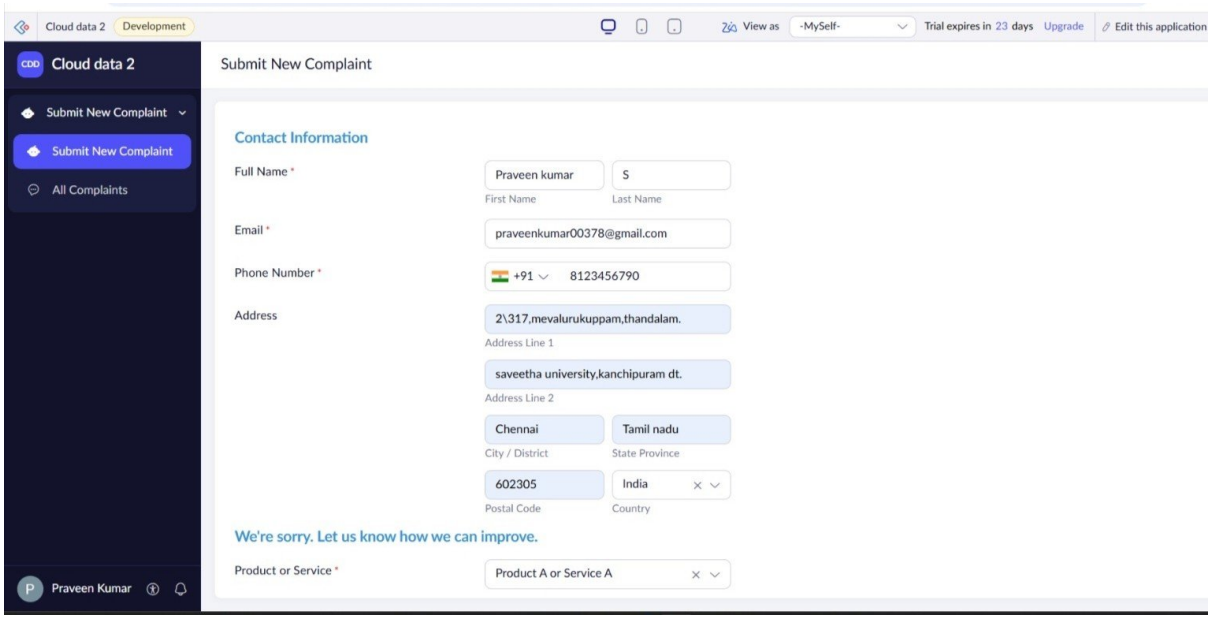

Aim

To create a simple cloud-based Customer Complaint Submission application using Zoho Creator and view the submitted complaints through a report.

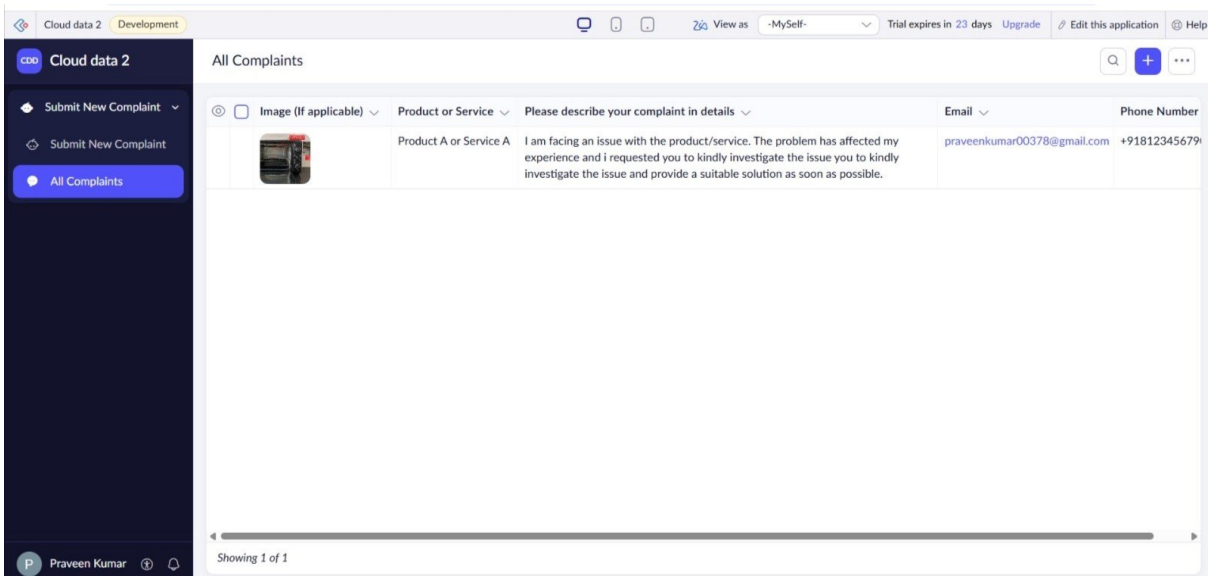

Procedure

1. Log in to the Zoho Creator cloud platform.
2. Create a new application named **Cloud data 2**.
3. Create a new form named **Submit New Complaint**.
4. Add the required fields:
    - Full Name
    - Email
    - Phone Number
    - Address
    - Product or Service
    - Complaint Description
    - Image (if applicable)
5. Configure the field types according to the data required (name, email, phone, address, dropdown, multi-line text, image).
6. Design and arrange the form for easy user interaction.
7. Save and publish the form.
8. Open the form and enter the complaint details.
9. Submit the form and verify that the record is saved.
10. Open the **All Complaints** report and check that the submitted complaint is displayed correctly.

Input & Output:

1. Input – Submit New Complaint Form (Zoho Creator)

2. Output – All Complaints Report (Zoho Creator)

Result

Thus, a Customer Complaint Management application was designed using Zoho Creator, and a complaint was submitted through the form and displayed in the report, demonstrating a cloud-based application.
